

WINTER TERM

By Aliaksandra Laurova

2015

1. Individual task

Poster for [The Save Me Trust](#)

"Everywhere wild life is under threat. But animal welfare isn't just about conservation in Africa or India. Treating animals decently starts right here at home. And it's really all about the right of every individual animal to a decent life and a decent death. And to dignity, and to be able to bring their children up in peace.

We are Save Me, working to give care where it's needed, but also to give wild animals a voice. Surely, every animal deserves to be wild and to be free of prosecution."

(c) Brian May, the Save Me founder

SAVE ME

STOP THE CULL

SAVE ME

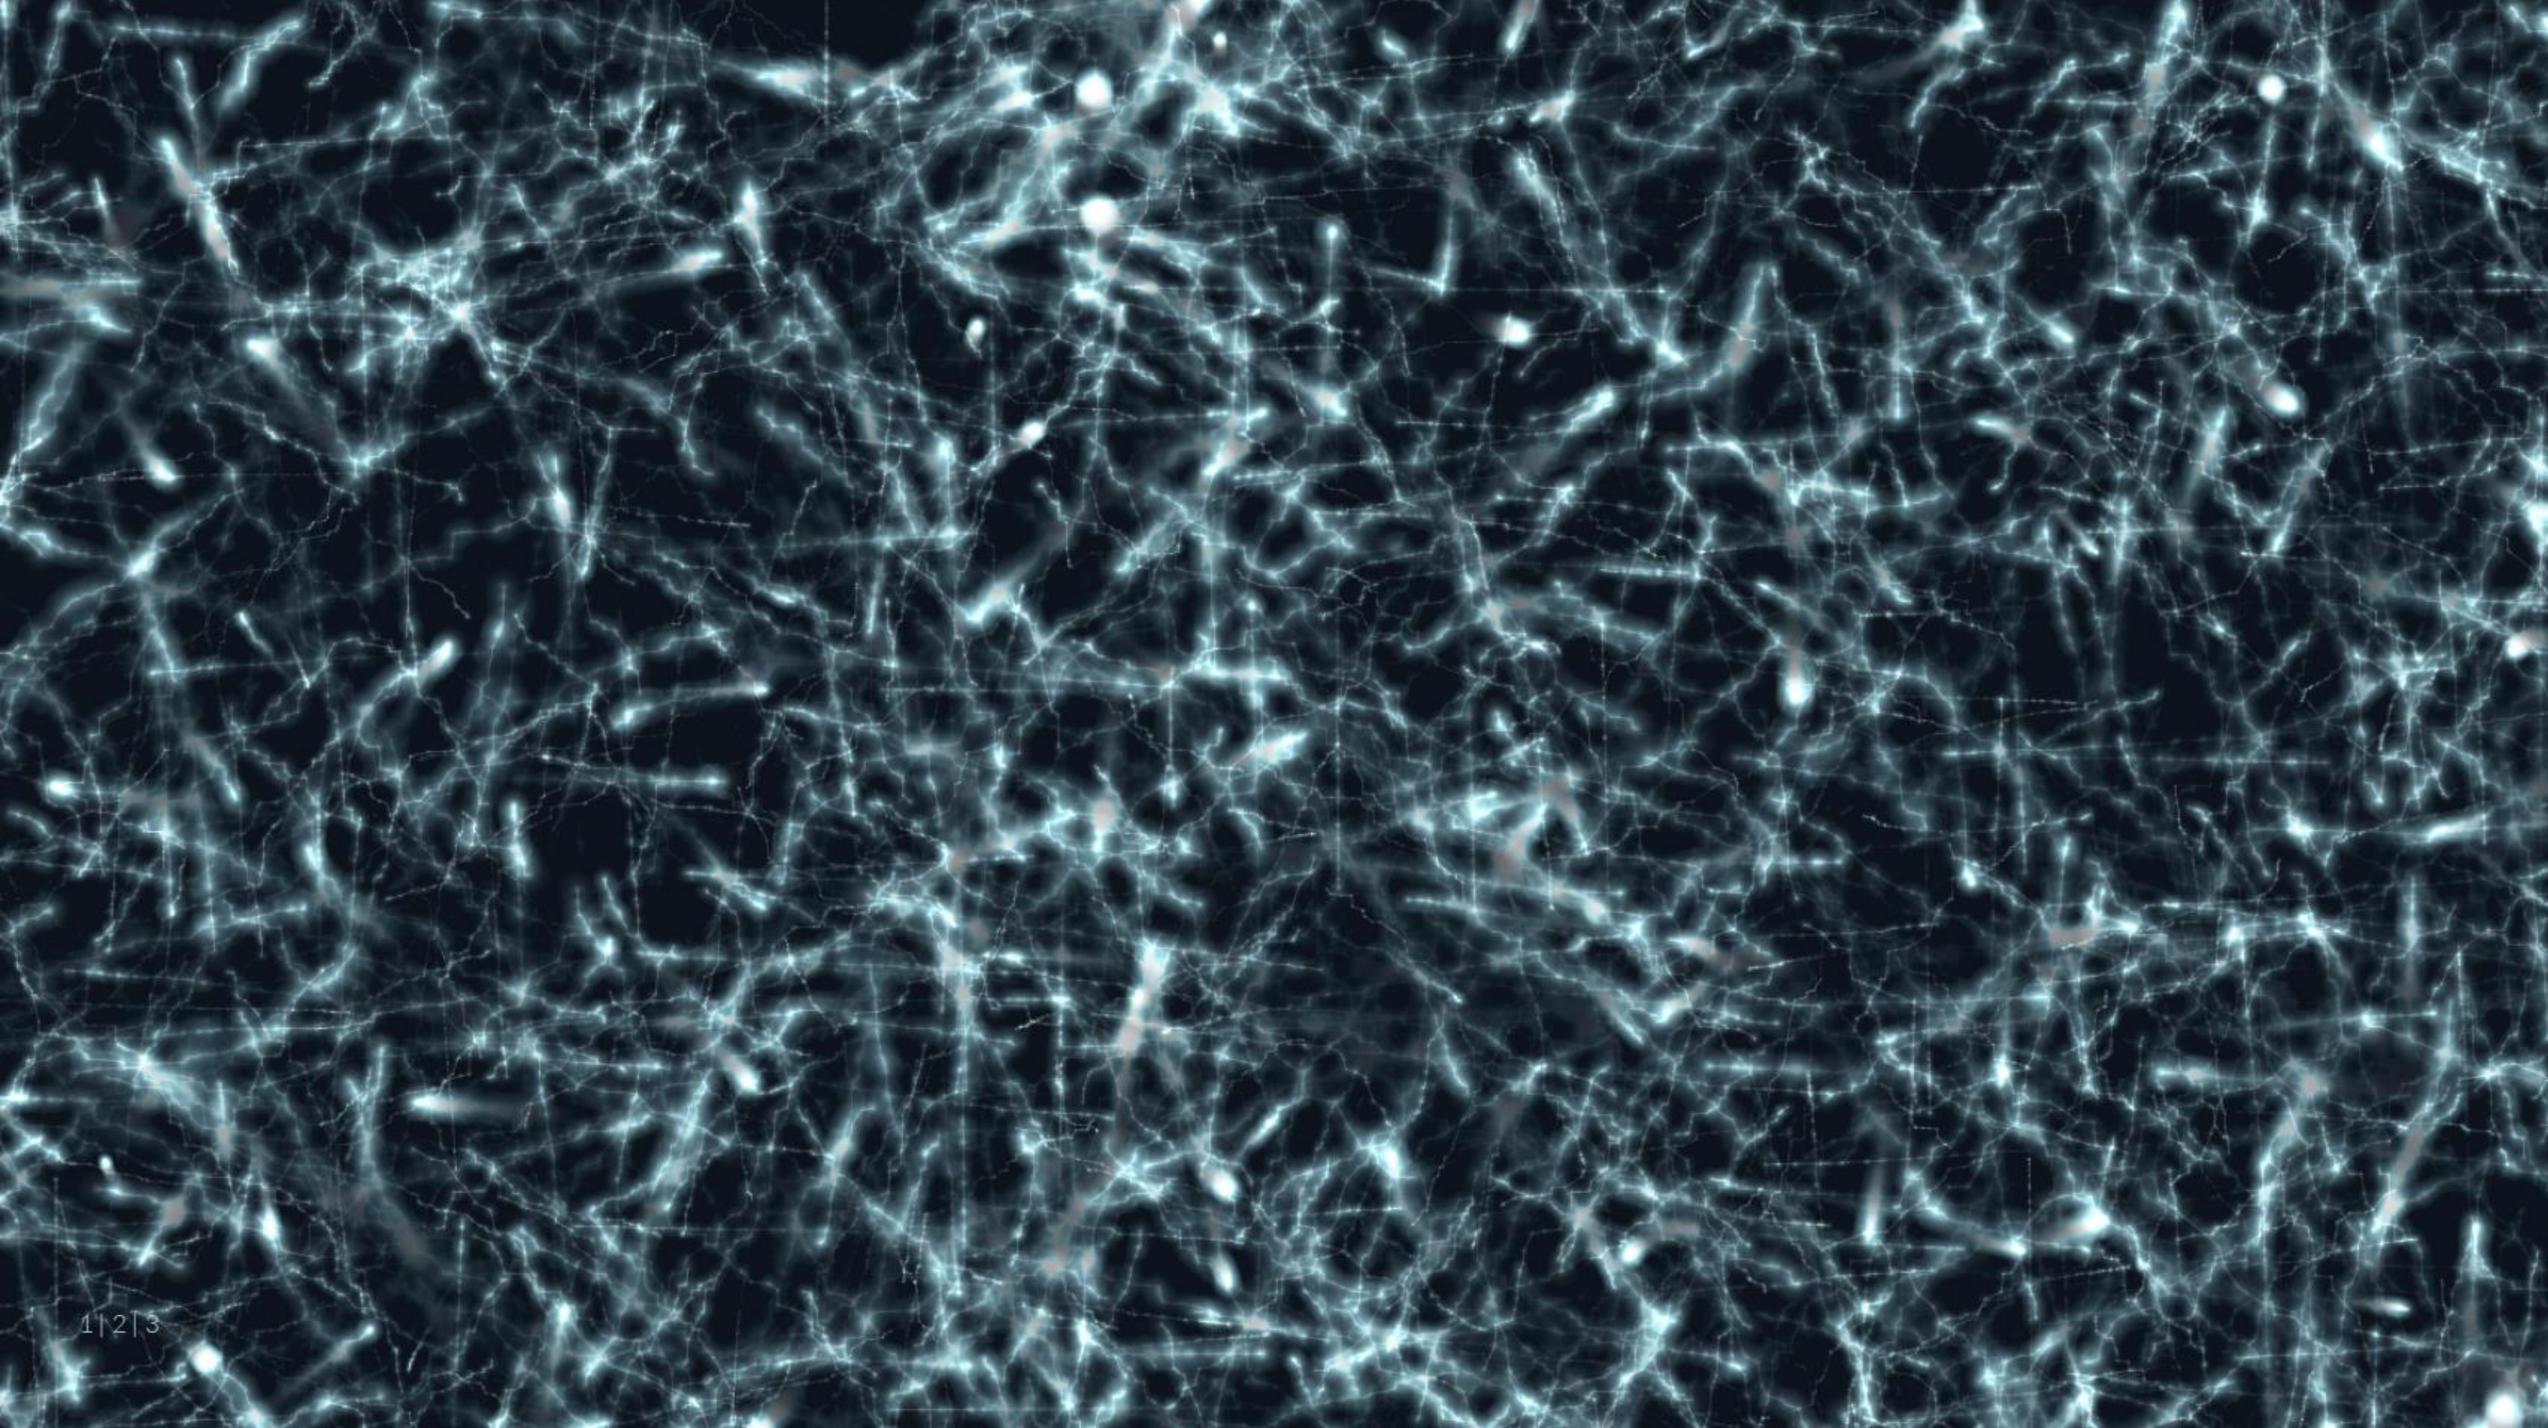

STOP THE CULL

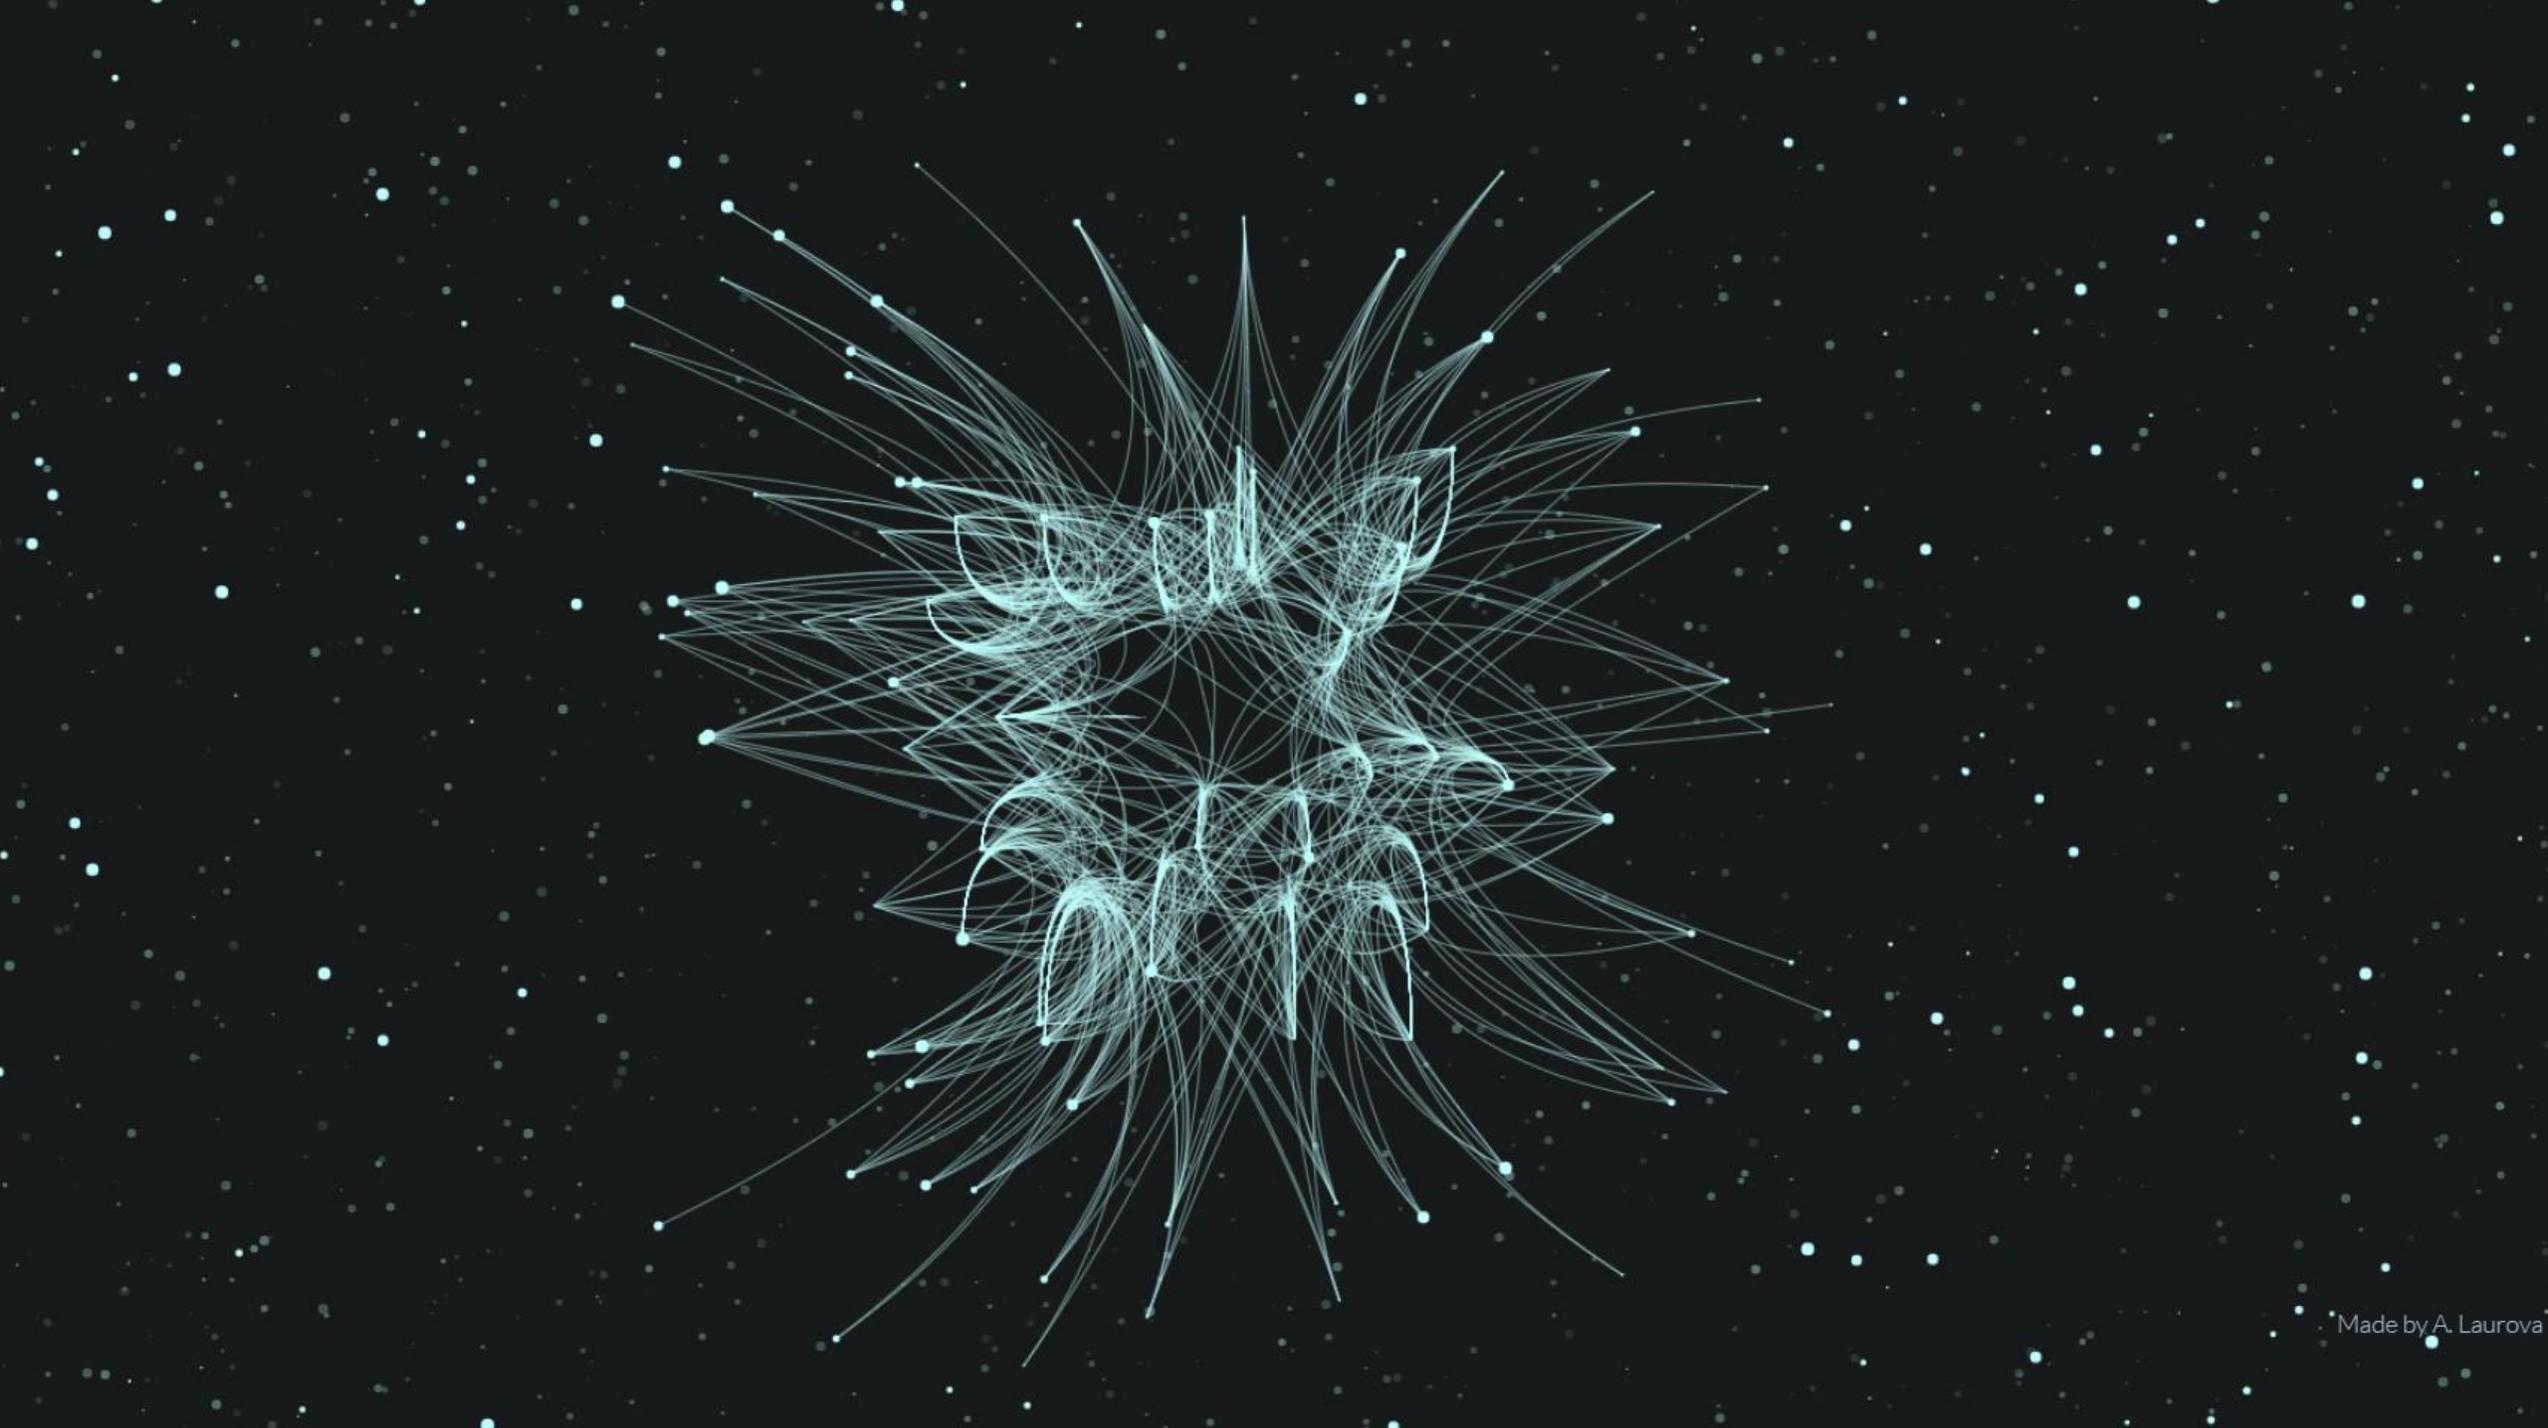

2. Chaos

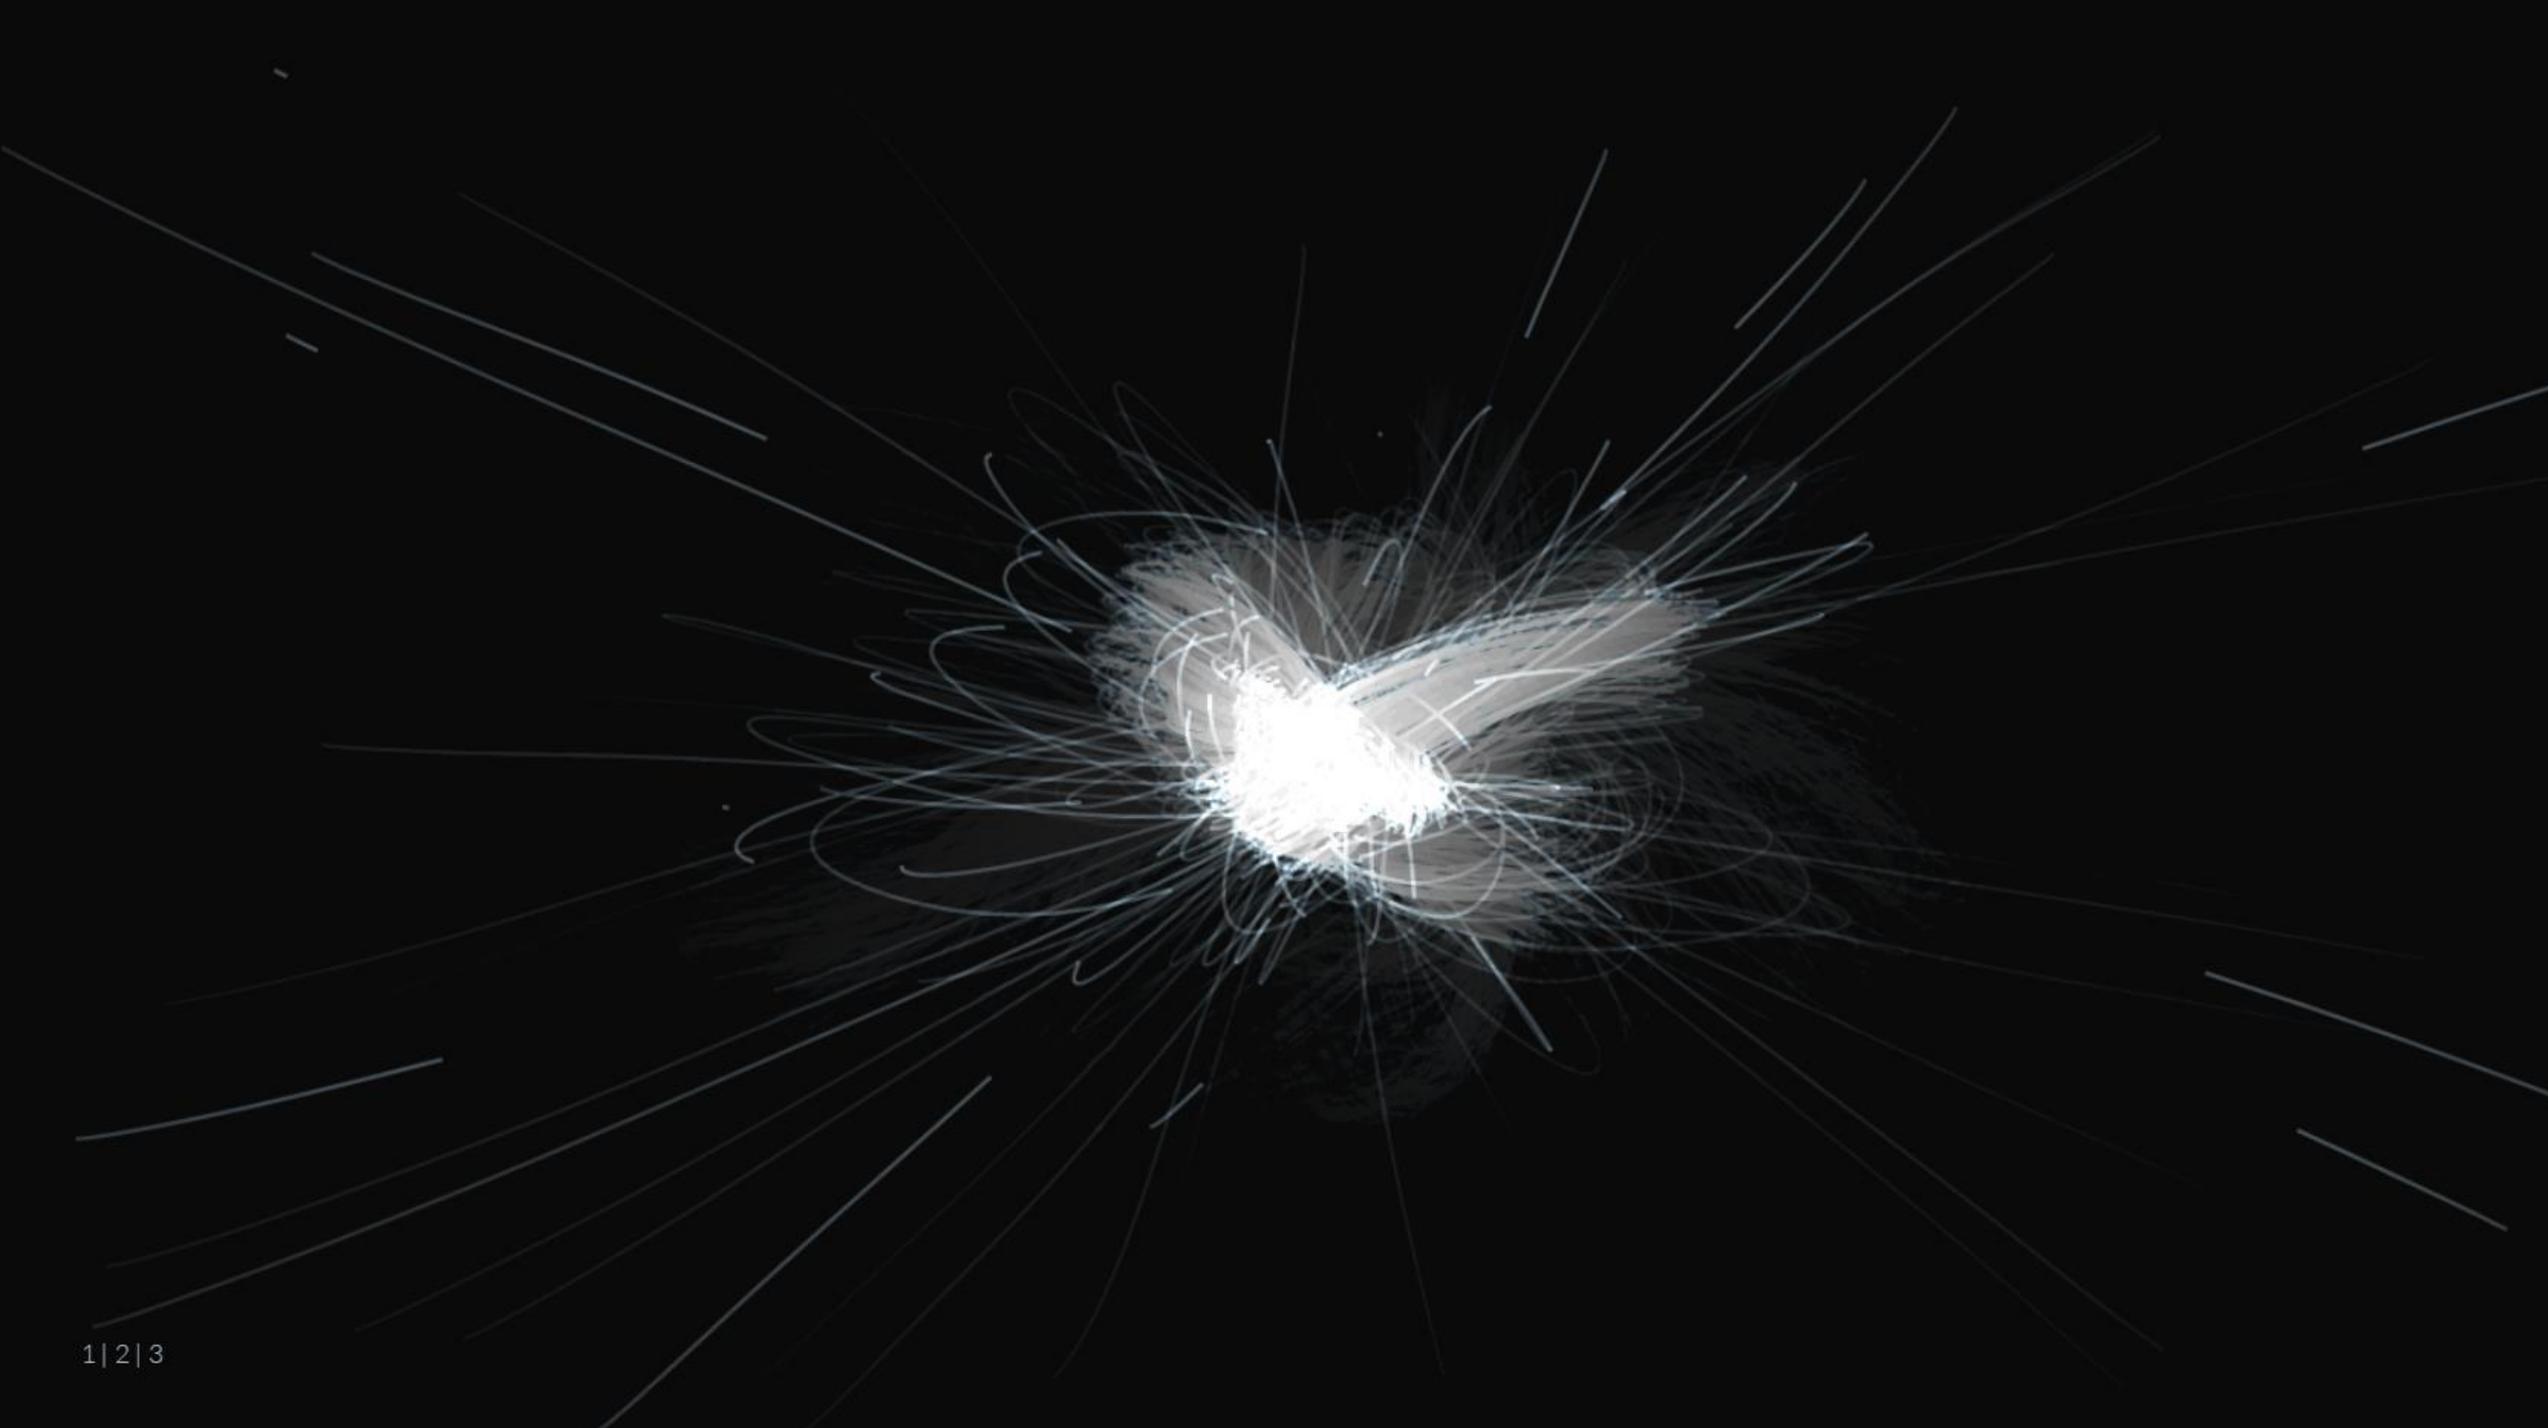

Dynamic JavaScript web site: [The First Chaos](#)

"Equilibrium is the state of death, only chaos produces life"

(c) Stephane Lupasco

3. News portal

A web portal preview: [MyNews](#)

MyNews

A simple way of getting information

MyNews is a project created for filtering the mass media to answer every individual's needs and fields of interests.

Create an account, choose the tags according to which you'd like to receive the news and enjoy the simplicity of getting information you personally are interested in.
